PERSONAL FITNESS EVALUATION

- When the Health Fitness Center receives your form, you will be contacted to schedule an appointment for your fitness evaluation and orientation. Both the evaluation and the orientation together will take approximately 45 minutes.
- The fitness evaluation includes a lifestyle questionnaire, heart rate, blood pressure, cardiovascular endurance, strength and flexibility testing, and body composition determination. The orientation will include a tour of the facility, explanation of Rules and Regulations, and information about our programs and services offered.
- A doctor's note may be required to allow you to participate in an exercise program. If you have pulmonary, cardiovascular, diabetic and/or musculoskeletal conditions present, a physician's approval is necessary prior to beginning your membership.

Credit Physical Education Courses and Fitness Trainer Program

Moraine Valley has several one credit hour group fitness, strength training, and dance courses available which allow you to earn college credit while becoming fit. Visit the Physical Education and Health course offerings on our Web site at morainevalley.edu.

Moraine Valley has a FITNESS TRAINER CERTIFICATE PROGRAM designed for students who desire classroom experience with hands-on training, leading to national certification and a career in fitness. For program information, call Catherine Nolan, PEH coordinator, at (708) 974-5378 or visit

morainevalley.edu/PublicService/fitness/fitness.htm.

Health Fitness Center

Located in the center of Moraine Valley's campus, the Health Fitness Center is open to the public as well as the college's students. Our 5000-square-foot facility offers a wide range of fitness equipment, fitness training, and a clean, friendly workout environment. Stop by the facility and try a guest pass to see if Moraine Valley's Health Fitness Center is for you.

Exercise Facilities

Our cardiovascular area provides upright and recumbent bicycles, elliptical training machines, stair climbers, and treadmills. You can take advantage of two strength-training areas which exercise specific muscles of the body: one area provides weight training machines and a second is a free-weight area. The free-weight area includes a Smith machine, various benches, squat racks, and a wide range of barbells and dumbbells.

Personal Fitness Evaluation

Moraine Valley Health Fitness trainers will start your membership by giving you a fitness evaluation which enables us to determine your present fitness level and design your exercise program. This is available by appointment. The testing includes a lifestyle questionnaire, blood pressure, heart rate, body composition, cardiovascular endurance, and strength and flexibility testing. You will receive your personal results within days of the test. After your initial testing, you may begin using the facility. Our fitness trainers can demonstrate how to use each piece of equipment properly. A doctor's note may be required to allow you to participate in an exercise program. If you have pulmonary, cardiovascular, diabetic and/or musculoskeletal conditions present, a physician's approval is necessary prior to beginning your membership.

Personal Exercise Program Development

Our qualified fitness trainers can design a safe, effective exercise program for you. You can have your program developed to meet your fitness goals, health history and time constraints. Our trainers will even work with your physician to develop a program tailored to your health needs. Our fitness trainers can develop programs in strength, balance, cardiorespiratory, and flexibility training. After the program is developed, you may make an appointment with a trainer to demonstrate and teach you the proper techniques. We also offer small group training called EXPRESSO classes. These 30-minute workouts are free to our members and offer various types of workout sessions such as yoga/tai chi, BOSU and stability ball training, and many more topics. See our monthly calendar schedule for further details.
